

Household water inputs and outputs

Where does that pipe go?

<p>Mains water Where does <i>your</i> mains water come from?</p>	<p>Rainwater What are some uses of rainwater in your home? What storage capacity do you have? How much rainfall does your house receive each year?</p>
<p>Sewer water What is in sewer water? Where does <i>your</i> sewer water go? What are the dangers of pouring chemicals such as old paint or oil into sewer drains?</p>	<p>Grey water Where does grey water come? What are some possible uses of grey water in your home?</p>
<p>Stormwater run-off Where does <i>your</i> stormwater run-off go? Where does it eventually end up? What substances and materials can mix with your stormwater runoff?</p>	<p>Borewater (groundwater) Where does bore water come from? Who owns the source of bore water? Will bore water ever run out?</p>

Household water inputs and outputs

Where does that pipe go?

Legend (Use different colours to show the different water systems)

Rainwater

Mains water

Sewer water

Grey water

Storm water

Bore water
